Questions:

1. What is partial round?
- 2 What is meant by "full" round?

MoDOT Response: For most of the mowing contracts there are four rounds of mowing. MoDOT is now mowing a maximum of about 30 feet off the shoulder of the roadway with exceptions near developed areas, interchanges, etc. Generally two of the mowing rounds (mowing cycles) will only partially mow the area about 15 feet wide off the shoulder. The other two mowing cycles will mow the full 30 feet wide. That is what is meant by a partial round and a full round of mowing. Note that each contract has specific descriptions of the actual areas to be mowed, and each contract is customized for the areas to be mowed, so closely check the descriptions.

3. Is this a prevailing wage job?

Modot Response

:

Prevailing wages do not apply since this work only involves maintenance of the highway system and does not involve construction or repair of the highway system.

THIS ADDENDUM MUST BE SIGNED AND SUBMITTED WITH RESPONSE.
